

Building a resilient, decentralised and carbon neutral global energy system.

Mission

The COGEN World Coalition (CWC) aims to create and expand a global community of firms, companies, institutions and people focused and interested on cogeneration/CHP. We advocate for an efficient and sustainable use of energy. Acting as the global reference point for the sector, we are supporting the sustainable growth of continents and countries that have only recently entered this specific market and that are developing this technology already mature and widely used in different areas of the world.

Aims

To create and foster dialogue with relevant intergovernmental organizations including the United Nations (UN), International Energy Agency (IEA), World Trade Organisation (WTO), World Bank, International Monetary Fund (IMF), etc.

To connect companies, entrepreneurs, associations and professionals active in the field of energy efficiency; to exchange information and experiences related to cogeneration technology; to promote a wider use of cogeneration worldwide.

To support initiatives in order to lobby policymakers and regulators; to exchange, discuss and develop positions on issues of common interest including energy efficiency, climate change, sustainable development, financing and more.

To support the establishment and development of national and continental associations/networks linked to cogeneration.
